About San Miguel

San Miguel School Chicago is a middle school (6th - 8th grade) program founded under the principles of providing students with a great education, a graduate support program and family support services to ensure that each student goes on to graduate high school.

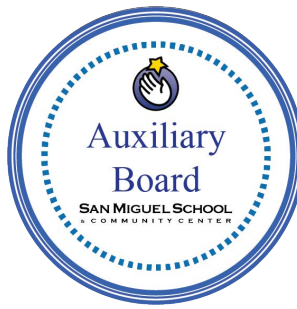

Studies have shown that a student's path is most likely determined before even entering high school. San Miguel School Chicago seeks students who are academically behind and financially at-risk; and students who enter San Miguel improve 4-6 grade levels in just three years. Graduates of San Miguel are twice more likely than their neighborhood peers to graduate high school.

Furthermore, 92% of San Miguel graduates enroll into college - far exceeding the national average.

About the San Miguel Auxiliary Board

The San Miguel Auxiliary Board plays a significant role in raising funds for the San Miguel School. Funds collected go directly toward student scholarships and community support for students.
